

## **A RESOLUTION OF THE SOUTH CAROLINA REPUBLICAN PARTY**

### **RESOLUTION OF SUPPORTING SENATOR LINDSEY GRAHAM AND HIS EFFORTS TO CONFIRM CONSERVATIVE JUDGES**

**WHEREAS**, our own Senator Lindsey Graham is now the Chairman of the powerful Senate Judiciary Committee which has a primary responsibility to review and confirm Federal Judges in the United States; and

**WHEREAS**, our nation is at a critical juncture since the Federal Judiciary has acted far outside of its boundaries in recent years and has made common practice of writing new laws out of thin air and acting as a legislative body; and

**WHEREAS**, it is apparent that far-left senators such as Cory Booker and Chuck Schumer seek to minimize President Trump's impact on the judiciary by disseminating false information about some conservative nominees; and

**WHEREAS**, our nation has tilted far to the left in numerous circumstances via an out of control judiciary at all levels in contradiction to the will of the people, and that Constitutional, originalist justices are a needed component of today's society;

**BE IT RESOLVED**, that the South Carolina Republican Party commends Senator Lindsey Graham for his commitment to expeditiously confirm President Donald J. Trump's conservative judicial nominees in the United States Senate and we call on both of our South Carolina Senators Lindsey Graham and Tim Scott to ignore liberal efforts to delay and block conservative justices and to confirm conservative judges at every level in the United State Judicial System.
