RE : Accusations of Assault

Dear Senator Senn:

I am writing you this letter to discuss North Carolina Case 13CR051313.

My mom falsely accused my dad, Matt Leber, who had and maintained full custody of me, in an effort to see me without paying child support or following any of the court orders that were put in place. My dad still allowed me to see her after everything she'd done to us. In the first visitation after the false accusation, she said she was desperate to see her little girl and now regrets that false allegation and the pain it caused.

If it means anything at all to you, I have not fully forgiven her for having my dad in jail on his 40th birthday with a false allegation, 6 days before my 10th birthday. Because that 10-year-old girl and 40-year-old man who are now 50 and 20, still deal with the backlash to this day from people like you.

Involving yourself in my personal, deep, family issues has won you nothing but hurt me and brought up horrible memories I had as a child. Once my dad met Michele, my life began to heal. They raised me and gave me a loving home for which I am grateful.

Sincerely,

Savanah Leber
